Parallels Meet: New Vistas of Religious Community and Empire in Ottoman Historiography. Guest editor Molly Greene.

The Ottoman Empire was a multi-ethnic, multi-religious state encompassing most of the modern Middle East, and for much of its 600-year existence it managed to rule effectively its diverse peoples. The essays of this issue move beyond the traditional state- and community-centered approaches and instead seek to explore the unknown terrain that falls between the internal life of the community and the formal structures of the state.

About Molly Greene

Molly Greene, is Director of Graduate Studies and Professor of History and Hellenic Studies in the History Department, Princeton University, and is the author of *A Shared World: Christians and Muslims in the Early Modern Mediterranean*.
